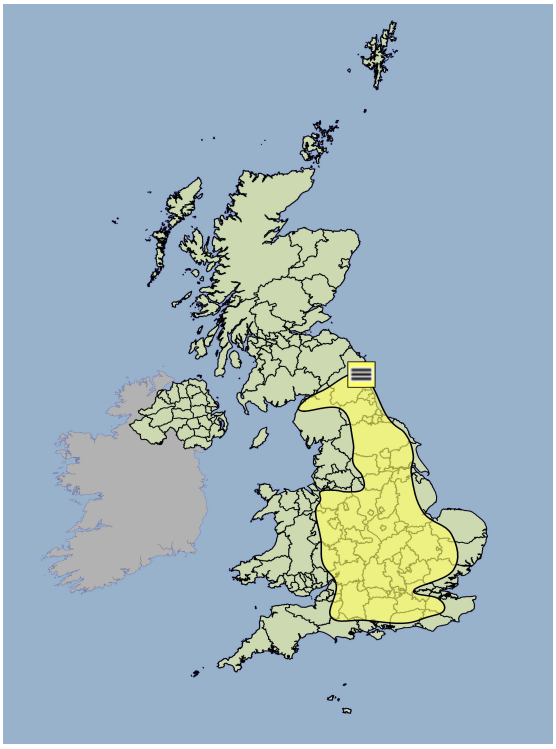
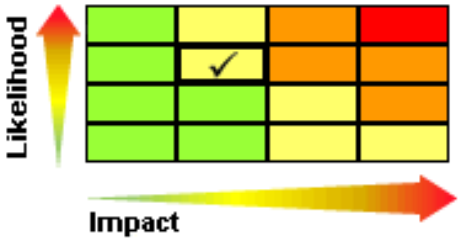
National Severe Weather Warning Service





Chief Forecasters Assessment
A ridge of high pressure across much of the UK will lead to clear skies and light winds overnight, a recipe for areas of locally thick fog to develop, which will take until late morning on Saturday to clear in some places.

The Met Office have issued a **Yellow Warning** of **Fog**

Valid from **01:00 on Sat, 03rd Oct 2015** until **11:00 on Sat, 03rd Oct 2015**

Patchy fog is expected to develop across much of England during the early hours of Saturday, becoming fairly widespread within the warning area by Saturday morning, with the visibility falling below 100 metres in places and leading to difficult driving conditions. The fog will thin and lift slowly later in the morning.
